RESUME OBJECTIVE

Financial Computing graduate passionate to see how far computer science and finance can blend in today's world. I enjoy working with a team and being able to bounce ideas off each other while learning and applying unique solutions to new problems. I can provide valuable insight on current trends and technologies.

EXPERIENCE

Information Technology Assistant intern
GC Insights, Shanghai, China / February 2020 – June 2020
Reporting directly to the management and collaborating closely with other members of the team. The main point person for all IT related inquiries and giving relevant solutions and recommendations to all queries during the day.

- Developing new functionalities, both back-end and front-end specifically for their Wix site.
- Fixed bugs from existing website and WeChat blog while implementing enhancements that significantly improved web functionality and speed
- Working with management to establish requirements and determine priorities.
- Designed and develop database using MySQL, HTML, CSS, and PHP
- Populating a database with new information or transfer existing data into it
- Implementation of new database, applications and demonstrating them to management
- Implementing strategies to improve companies' SEO, having the site appear on top of google search

Graduate Teaching Assistant (Computer Science)
Xi'an Jiaotong-Liverpool University, Suzhou, China / February 2019 – January 2020
Specific Modules Taught:
- Data Structures and Algorithms (Year 2 Students)
- Fundamentals of Java Programming (Year 2 Students)
